Neopost USA Introduces Jogger Series

NJOG & HJOG joggers enhance processing productivity

MILFORD, CT, September 8, 2010 – [Neopost USA](#) has introduced its new line of Neopost NJOG & Hasler HJOG Joggers designed to ensure ultimate productivity when using devices such as a stand-alone folder, folder/insertor or other office equipment that processes finished printed documents. The new series of desktop and floor model joggers deliver quick, efficient and dependable jogging of a wide range of paper sizes.

Whatever the size of your business, the user-friendly Joggers - Neopost NJOG 100/101/1011 and Hasler HJOG 100/101/1011 - will ensure that your mail processing operates faster, simpler and more reliably. Whether printing daily invoices, checks, marketing materials, statements or other documents, they all can now be pre-staged before running through a folder or folder/insertor. This eliminates static electricity caused during the print run, helps dry ink, and quickly stacks the documents to be folder or folder/insertor ready.

The mail pieces that flow in and out of your office come in a variety of shapes, sizes and style. Utilizing an efficient NJOG/HJOG Series Jogger means the time spent aligning and separating paper can be better spent on more valuable tasks. NJOG/HJOG Series Joggers are available for low-volume applications, with a hopper capacity of 500 sheets, to a high-capacity air Jogger, with a hopper capacity of 940 sheets and the use of jogging plus air. Whatever the application, Neopost and Hasler have a jogger solution to ensure that your document processing moves faster, simpler and more efficiently. ♦
