MIX IT UP

THE IS-440 WEIGHS IT OUT AND STARTS YOU UP

Fast, accurate weighing and rating. Using the Differential Weighing, simply place all your mixed weight mail on the weighing platform, remove an envelope and the correct rate is calculated. With Smart Start technology, each time an envelope is removed from the weighing platform in differential weighing mode, the Auto Feeder starts and is ready to process mail or automatically dispense a Secure Stick postage label.

TRACK, CONFIRM, AND SAVE WITH E-SERVICES

Save money by using USPS® discounted electronic rates for eDelivery Confirmation, eSignature Confirmation, and eCertified with Electronic Return Receipt. Email alerts and online access save time by helping you monitor, track, and confirm important items while providing the most accurate data.
