IJ-80

THE HIGH PRODUCTIVITY MAILING SYSTEM FOR DEMANDING MAILROOMS

The professional modular mailing solution for expanding needs

WE VALUE YOUR MAIL 

IJ-80

PRODUCTIVITY AT THE HEART OF YOUR MAILROOM

The Neopost IJ-80 combines speed, modularity and advanced technology to deliver a mailing solution that's simple and effective. It handles daily mail as easily as high volume runs or mixed daily loads of letters and packages. With the IJ-80, you can configure a system that fits your mailing profile perfectly. Its modular accessories quickly and easily accommodate your needs as they grow or change – meaning you only pay for the capabilities you need.

The IJ-80 is simple to operate yet durable enough to stand up to the demands of the toughest environments.

Automatic feeder processes mail up to 5/8" thick and handles your mail at up to 185 letters per minute

EFFICIENCY AT YOUR FINGERTIPS

The IJ-80 is controlled through a clear, intuitive touch screen that's big enough to read easily and doesn't have you hunting around a tiny keyboard. It's simple for first-time users and fast for experienced operators, giving direct access to important information and one-touch recall of regular jobs.

A MAILING SYSTEM THAT MEETS THE NEEDS OF A DEMANDING MAILROOM ENVIRONMENT

The IJ-80 can interface with integrated weigh platforms up to 70 lbs. The dynamic scale option can automatically calculate and apply correct postage to items weighing up to 32 oz. You can even weigh a varied selection of items using differential weighing, which calculates the postage for each piece removed from the platform. Posting larger items is made easy with the built-in label dispenser or external thermal roll tape dispenser. You can also add a conveyor stacker to neatly collect your mail, saving even more time and boosting mailroom productivity.

Automatic label dispenser stores and prints up to 70 labels, for swift and easy package mailings

The large touch-screen control panel is programmable to make operating the IJ-80 simple and intuitive

Simple operation is aided by automatic date change, as well as job memories which enable you to store settings, with instant recall for re-use

The sealing system ensures a perfect envelope seal and cleans easily without a service call

PROCESS UP TO 185 LETTER PER MINUTE

FEED AND SEAL MAIL UP TO 5/8" THICK

ACCURATELY WEIGH MAIL IN-MOTION AND APPLY EXACT POSTAGE

CONTROL AND ALLOCATE POSTAL COSTS FOR UP TO 500 ACCOUNTS

CONNECT TO A PC TO TRACK, ANALYZE AND MANAGE POSTAL EXPENDITURES

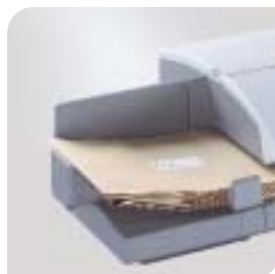

GET MORE IMPRESSIONS FOR LESS

The long lasting ink cartridge reduces operating and supply costs, producing a high volume of impressions per cartridge, and can be conveniently replaced in seconds.

PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organization. A choice of nine customized slogans can be loaded from memory cards and you can add your company name, greetings, slogans – even logos and photographs.

MAXIMUM FLEXIBILITY IN HANDLING ENVELOPES

The IJ-80 handles envelopes as big as 10"x13", in either portrait or landscape, which can be sealed or not according to your needs. Its high-capacity feeder has an adjustable side guide to hold your large stacks of mail in place, so high-volume, same-sized mailings are dealt with in minutes.

INTEGRATES INTO YOUR MAILING SYSTEM

When linked to a folder inserter, the IJ-80 gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It allows your mail to be folded, inserted, sealed, weighed and metered all in one automatic process, and is perfect for direct mail and other marketing activities.

IJ-80

DIGITAL MAILING MACHINE

STANDARD FEATURE SUMMARY

- Compliant with USPS requirements
- Auto Date Advance
- PIN number security
- Unique, easy-to-read touch screen operation
