MAIL CENTER FURNITURE

A complete line of furniture to meet all your mail handling needs

WE VALUE YOUR MAIL

MAIL CENTER FURNITURE

PROVIDING SOLUTIONS FOR YOUR OFFICE AND MAIL CENTER REQUIREMENTS

It all starts in the mail center. Neopost's furniture line is designed to organize the flow of mail center activities, increase productivity and streamline your workflow. From incoming dump stations, modular tables and consoles to complete sorting systems, the Neopost range of ergonomically designed furniture will integrate perfectly with your mail center. Our complete furniture line is constructed of heavy-gauge steel to withstand the everyday rigors of a busy mail center.

MODULAR TABLE CONFIGURATIONS OPTIMIZE FLOORSPACE

Designed to increase mail handling productivity, the Neopost range of modular tables can be configured to create a variety of functional mail center units. Available in 33", 45 1/2" or 68" length, each table is equipped with adjustable legs for heights ranging from 29" to 36". Adaptable to your specific needs, modular tables feature rear and side panels and optional lower shelves and sliding doors. A variety of risers and sorters can be added to any size table.

33" MODULAR TABLE

45 1/2" MODULAR TABLE
with lower shelf and doors

45 1/2" MODULAR TABLE
with splasher assembly

Riser units are used to elevate sorter bins keeping valuable work surfaces clear. Available in 6", 13" or 22" high and sized to fit the width of our tables

Modular tables are equipped with adjustable legs for height adjustments from 29" to 36"

MULTI-FUNCTIONAL WORK AREAS INCREASE PRODUCTIVITY

Maximize the efficiency and the flexibility of your mail center while sorting incoming, outgoing and internal mail by adding sorters and risers to modular tables. Sorters can be customized to meet your business needs. And, with the ability to stack multiple sorters, the possibilities are unlimited. By adding a riser, you can lift the sorting modules off the table and utilize the entire work surface. Neopost provides a complete furniture solution to optimize your mail center.

Sorting bins are equipped with unique four-sided steel skirts that securely nest on top of one another to create larger units. This guarantees sorters are secure when stacked

Horizontal sorter shelves are adjustable in 1 5/8" increments and are available to fit all sorters. Locking tabs secure shelves in place. All shelves are designed with a return on the front and back side for added strength and durability

Unique sorting bins can be customized to store materials from postcards to large computer reports

All sliding doors are designed to "glide" for easy access to stored mailing supplies

45 1/2" MODULAR TABLE
shown with 22" riser and 20-bin sorter

68" MODULAR TABLE
shown with 22" riser and 30-bin sorter

CORNER CONFIGURATION
using a 68" modular table, 33" standard table and
45 1/2" modular table all with risers and sorters
