SI-30

QUICK AND EASY FOLDING AND INSERTING

Increase staff productivity by automating manual processes

WE VALUE YOUR MAIL

SI-30

AUTOMATIC FOLDING AND INSERTING FOR EVERYDAY MAILINGS

Do you currently waste valuable time hand stuffing documents into envelopes? Did you know on average our folder/inserters stuff envelopes up to 10 times faster than by hand?

With the Neopost SI-30 you will get a clean, professional looking mail piece every time. Compact and quiet, this desktop folder/inserter is a valuable addition to any office and it is easy to set up and even easier to use. The secure'n Feed™ feature ensures that each recipient gets the correct mail piece. Our patented electro-mechanical thickness detection is not sensitive to paper dust or colored paper. And you can even process document sets up to five pages either stapled or not. Simply select Daily Mail Mode and drop your set into the front bin. It's really that easy.

For anyone looking for an easy-to-use, office friendly, automated folder/inserting solution that will consistently create a professionally looking mail set, the SI-30 is your answer.

Modular clamshell design allows for easy access

Clean, professionally folded mail pieces every time
